
Mobility Aware Technologies And Applications First International Workshop Mata 2004 Florianopolis

the technologies behind a context-aware mobility solution - in this paper, you will learn about the main location-tracking technologies and the different techniques that are used to calculate the location of business assets as part of a context-aware mobility solution. the technologies described should be thought of as complementary rather than competing. **1 mobility-aware caching for content-centric wireless ...** - mobility-aware caching for content-centric wireless networks: modeling and methodology rui wang, xi peng, jun zhang and khaled b. letaief, fellow, ieee abstract as mobile services are shifting from "connection-centric" communications to "content-centric" **cisco context-aware mobility solution: put your assets in ...** - a variety of context-aware technical solutions using wi-fi or other wireless networks can be deployed running standalone or simultaneously. for detailed information about other context-aware technical solutions in addition to wi-fi, see the following white paper: the technologies behind a context-aware mobility solution . **strale: mobility-aware phy rate and frame aggregation ...** - strale: mobility-aware phy rate and frame aggregation length adaptation in w lans seongho byeon, kangjin yoon, changmok yang, and sunghyun choi department of ece and inmc, seoul national university, seoul, korea **the future of mobility series - c2smarting.nyu** - the ultimate laboratory for emerging mobility technologies. ut much of new york's long-established transportation infrastructure, like the subway system, was not designed for 21st-century uses. the purpose of the future of mobility series is to investigate where the transportation system is lacking in **location-aware mobile © the author(s) 2013 technologies ...** - mobility, spatiality, and sociability. besides exploring the historical antecedents of today's location-based services, this article focuses on the main social issues that emerge when location-aware technologies leave the strict domain of art and research and become part of everyday life: locational privacy, sociability, and spatiality. **mobility agents: guiding and tracking public ...** - mobility agents project takes a multi-faceted approach to this problem. for persons with cognitive disabilities, the project has been developing mobile, personalized, location-aware technologies to provide "just-in-time" memory prompts and cues for what to do and where to go next. for the caregiver **review of mobility aware clustering scheme in mobile adhoc ...** - in mobility aware clustering scheme, the mobile node"s mobility behaviors (distance, speed, acceleration, and relative velocity) are estimated first at regular intervals of time. **location-based services, conspicuous mobility, and the ...** - 2 location-based services, conspicuous mobility, and the location-aware future 1. introduction where is business: where people live, where they go, and where, when, and how they spend their money are now key factors in business success. **8 international hr strategy the role of hr in global mobility** - really experience global mobility, both from the point of view of an assignee and from the point of view of the busi- ... pared with the skills in global awareness and fluency, and global business ... investment in global mi technologies and of the strategic talent investment. ultimately there are other more tangi- **using gis to make urban mobility more sustainable** - • location-aware technologies • mobile sensors and geosensor networks • mobility and movement analytics • science and tools for exploring massive spatio-temporal data • tools for simulating human systems from the "bottom-up" **call for papers transactions on emerging ...** - context-aware mobility has gained tremendous attention with the advent of new generation of portal devices, e.g., smart phones, smart watches, tablets, fitness bands and smart cars etc. change in the context can significantly ... enabling technologies, technical and non-technical challenges and recent accomplishments associated with context- **mobile iptv - university of texas at arlington** - and mobility-aware technologies. scalable video coding the scalable video coding (svc) technology lets the system consider the network's terminal types and available bandwidth. although svc enables scalable representation of video content with high coding efficiency, it's difficult to per-form real-time encoding because of the svc en- **cisco mobility services engine** - 11-3 enterprise mobility 7.3 design guide ol-14435-01 chapter 11 cisco mobility services engine overview - context aware engine for tags: the partner (aeroscout) location engine (both rssi and tdoa) is used to track wi-fi active rfid tag. **mobility modernization - progress** - mobility, cloud computing, and even emerging areas ... • make sure you're aware of how the structure of your organization, especially with mobile, data and backend ... a mobile app built with web technologies, hosted in a native app shell. hybrid technologies (cordova, phonegap, ionic) embed full-screen browsers and use plugins ... **ip mobility to support live migration of virtual machines ...** - ip mobility to support live migration of vms across subnets motivation - migrate vms between physical hosts - good for load-balancing, hardware maintenance, etc. **international journal of distributed regional energy- and ...** - t o solve this issue, a regional energy- and mobility-aware rout-ing protocol is proposed in this article. both energy and mobility features in hybrid wireless mesh network are considered in this routing protocol. on one hand, within the communication tr ansmission range, the intensity and degree of dispersion in ... key technologies in the ... **udc 004.4 optimal multicast subgrouping in mobility-aware ...** - technologies. this paradigm forces wireless networks to manage their resources as e ctively as possible. one of the most appropriate solutions for video tra c that may provide the su cient spectral e ciency is multicasting. multicast sessions allows a group of users to simultaneously access the same multimedia content with the same qoe parameters.

the design of assistive location-based technologies for ... - emerging location-based technologies [31] for a (see survey) could help mitigate the problems for mobility impaired people via smart trip planning. recent reports by the u.s. department of transportation and a report [40,41] from the geoaccess team called for research and [36] development in areas such as accessibility-aware navigation **cooperative content caching in 5g networks with mobile ...** - technologies of this architecture. next, we focus on mobility-aware cooperative content caching and develop a vehicle-aided hierarchical edge caching scheme. then we present numerical results for performance evaluation. conclusions and future research challenges are presented in the final section. cooperative caching networks **new frontiers in connected vehicle technologies: a testbed ...** - hardware-in-the-loop simulations for information-aware and data-driven connected autonomous vehicle (cav) research. to achieve a reliable, user acceptable, comfortable, and affordable cav system, it is necessary to push technological advancements and multidisciplinary research not only on sensing technologies and control systems, but also on **university of calgary quality of experience and mobility ...** - (mss). to fully utilize inter-rat o oading advantages, a mobility-aware evaluation is needed, which takes into account the combined e ects of mobility and mss/bss spatial distributions on the performance gains. this thesis develops an analytical mobility-aware evaluation framework that accurately evaluates the performance of inter-rat o oading **scalable qos-aware mobility for future mobile operators** - technologies. daidalos architecture proposes an enhanced ipv6 mobility platform that provides mobility and qos, as key drivers of future all-ip based ... **scalable qos-aware mobility for future ... the aware home: a living laboratory for technologies for ...** - the aware home: a living laboratory for technologies for successful aging gregory d. abowd, aaron f. bobick, irfan a. essa, elizabeth d. mynatt, wendy a. rogers gvu center georgia institute of technology atlanta, ga 30332-0280, usa abstract we describe our ongoing research in the area of de-veloping and testing technologies for successful ag-ing. **mobility-aware analysis of 5g and b5g cellular networks: a ...** - specific 5g application scenarios where the impact of mobility would be significant and outline the challenges associated with mobility-aware analysis of those scenarios. index terms—fifth generation (5g) and beyond fifth genera-tion (b5g) cellular, individual mobility, group mobility, handoff **disruptive technologies opportunities for the asphalt industry** - mobility opportunities for freight and people... •provide clear, distinguishable pavement markings for vehicle sensors, •the ability to minimize travel time and maintain high speeds by providing a safe, smooth driving surface, and •asphalt pavement’s ability to be quickly and easily maintained and accommodate technologies. **the shift from ownership to access is shaping the future ...** - consumers are aware of them and usage has remained fairly flat over the last three years. 22 ... perception that it is necessary is starting to dissipate as mobility alternatives emerge and the cost of ownership continues to rise. > ride-hailing has not displaced vehicle ownership to the ... clutch technologies’ software platform enables ... **mofa: mobility-aware frame aggregation in wi-fi** - mofa: mobility-aware frame aggregation in wi-fi seongho byeon, kangjin yoon okhwan lee, sunghyun choi department of ece and inmc seoul national univeristy, seoul, korea **semantic web technologies for mobile context-aware ... - casos** - context-aware applications, sonat context-aware message filtering and delivery application, context-aware museum tour guide applications) • when extended to support rules, semantic web technologies provide a particularly powerful framework to capture and enforce rich security and privacy policies (including context-sensitive policies) **applying client-aware technologies for desktop ...** - it@intel white paper applying client-aware technologies for desktop virtualization and cloud services improving client-aware shv with workload shifting with the addition of client-aware features, shv could become a more viable alternative compute model for delivering desktop services in some use cases. these features **cisco - cisco mobility services engine 23 context aware ...** - section for a list of documents about the configuration and design of context aware mobility services. adaptive wips configuration is also not covered in this document. prerequisites requirements ... there are two technologies that are used to track wi-fi devices with the cisco mobility solution: • rssi (received signal strength indication) ... **proxy mobility paper - imperial** - mobility-aware router (mar), which is a router with mobile management and related functionalities and the mar is then connected to various wireless access networks. one can view the proxy and the mobility-aware router as single, combined entity, although the two can be **ip 2020: towards a digital connected mobile society in the ...** - huawei technologies co., ltd. page 28 tomorrow’s needs and today’s network ... the adoption of 5g with its new requirements are going to challenge the infrastructure. scale mobility (large range and fast) high throughput and low latency security self- aware/managing network o energy preservation and low power **security implementation considerations for mobile and ...** - mobility can expose your organization to data-security threats - with the rapid increase of mobile platforms, there are more endpoints than ever to secure and manage wireless devices will inevitably connect to your enterprise resources - the balance between information protection and information access becomes more complex **pwc enterprise mobility service offerings emerging ...** - enterprise mobility service offerings • emerging technologies section 1 - enterprise mobility essentials key questions for a successful enterprise mobility implementation how to identify business processes an enterprise should mobilize first to increase revenue and reduce cost ? how to build innovation around **the case for mobility: how new-age utilities can energize ...** - the case for mobility: how new-age utilities can energize operations and boost customer service a confluence of challenges — from rising

regulatory compliance costs and scrutiny, through heightened competition and an aging workforce — make it imperative for utilities to embrace a new wave of mobility **enterprise security in the age of remote and mobile work** - aware, inc. work has changed. advances in mobility and connectivity have accelerated the evolution of the modern business, allowing new types of enterprises to emerge. thanks to the ubiquity of smart-phones, tablets, and other connected devices, the classic nine-to-five workday confined to the cubicles of an office space is no longer the norm. **network architectures for mobility** - aware of the handoff, and thus do not need to be modified for mobility. quality of service: qos should not be reduced as the mh moves and performs handoff. 2.3 current solutions for host mobility the internet host mobility is mainly approached from three angles: data link layer mobility, network layer **driving positive outcomes through open data solutions for ...** - mobility systems. if managed well, however, these disruptions present amazing opportunities. open data can help mobility reach its potential. open data not only inspires innovation, but also improves engagement, collaboration, and learning between government agencies and the public. transit agencies are aware and have embraced these initiatives. **mobility success story anthony marano company** - hear. for us, shoretel mobility's unique seamless handoff capability promises to be a technological leap from previous solutions we have seen and tried." about shoretel mobility the award-winning shoretel mobility is the industry's first and only business mobile convergence platform that uses rf-based, location-aware technologies **mobility-aware web prefetching over heterogeneous wireless ...** - mobility-aware web prefetching over heterogeneous wireless networks stephen drew and ben liang department of electrical & computer engineering, university of toronto, toronto, canada fdrews, liangg @comm.utoronto abstract - this paper presents a predictive framework for mobility-aware prefetching to enhance the experience of **mobility handling in mac for wireless ad hoc networks** - mobility-aware mac protocols. finally, we discuss open issues in dealing with mobility in sensor networks. i. i. n t r o d u c t i o n . a wireless sensor network (wsn) is an ad-hoc network of ... with the advancement in sensor technologies, strong mo ... **promoting cultural awareness in health care students with ...** - promoting cultural awareness in health care students with the use of virtual mobility, communication technologies and authentic case studies d. chambers 1, h. wharrad , f. todhunter 1, k. chambers , d. nencini2, j. mcgarry 1 university of nottingham (united kingdom) 2 free lance (united kingdom) derekchambers@nottingham, heather.wharrad@nottingham **geospatial technologies in the location-aware future ...** - geospatial technologies in the location-aware future: technological development, the social life of data, and the everyday practices around mobile digital devices. ... developments that giscientists interested in mobility need to understand. for instance, research **architecture and protocols for service and application ...** - a flexible, mobility-aware infrastructure and the technologies to support seamless service management, provisioning and delivery. despite the advances in routing and media access control technologies, little progress has been made towards large-scale deployment of services and applications in pervasive and ubiquitous environments. **multi-scale flow mapping and spatiotemporal analysis of ...** - analysis of origin-destination mobility data xi zhu department of geography data on spatial mobility have become increasingly available with the wide use of location-aware technologies such as gps and smart phones. the analysis of movements is involved in a wide range of domains such as demography, migration, public health, urban **engineering and construction companies - deloitte us** - technologies, such as gps and video, enable a number of additional capabilities beyond communication. for example, advanced mobility features enable the use of newer tools and technologies, such as social project collaboration tools and augmented reality, which can help manage work tasks such as registering, scheduling, locating, and even **ieee journal on selected areas in communications, vol. 31 ...** - cacciapuoti et al.: optimal primary-user mobility aware spectrum sensing design for cognitive radio networks 2163 our knowledge, the analysis of the effects of the user mobility on spectrum sensing is still an open research problem in the literature. **senseable city lab ::: massachusetts institute of technology** - others. with rapid developments of information and location-aware technologies, researchers nowadays have access to large datasets of different types (e. g., mobile phone records, social media data, public transit records). this allows for acquisition of new knowledge about important aspects of human mobility patterns (de montjoye, hidalgo,
