# Neurological And Neurosurgical Nursing

**guidelines for basic adult neurological observation** - the guidelines for basic adult neurological observation are the result of a collaborative effort between ccso, the neurosurgical nurse educator (nne) network and provincial neurosurgery ontario. the nne network supports system-wide improvements for ontario's neurosurgical services through education and outreach **focused neurological assessment - rn** - the fundamental processes of the brain and nervous system are key to understanding why nurses perform a focused neurological assessment. if there is a disruption to any of these processes, the whole body suffers. this course will **neurological surgery milestones - acgme** - functional neurosurgical procedures . recognizes and initiates work-up of routine complications (e.g., seizures, device infection) formulates a diagnostic and treatment plan for a patient with epilepsy or a movement disorder : performs routine functional neurosurgical procedures; assists with complex functional neurosurgical procedures **introduction to neurosurgical subspecialties - societyns** - the society of neurological surgeons introduction to neurosurgical subspecialties: trauma and critical care neurosurgery brian l. hoh, md1, gregory j. zipfel, md2 andstacey q. wolfe, md3 1university of florida, 2washington university, wake forest univeristy3 **the neurological exam in the intensive care unit** - •it is challenging to do a "good" neurological assessment on all patients. -disadvantage is that little of the exam is possible -advantage is that you can follow the exam over time. "traditions and assumptions" •gcs is not a surrogate for a neurological exam. •delirium monitoring is also not as good neurological exam.
